Council Charge
Planning Councils provide the structure for a consultative process by which the College’s comprehensive strategic plan is analyzed and updated on a regular basis in accordance with the institutional mission, values, and commitments. The Facilities and Construction Planning Council works with the Vice President for Administration to analyze, critique, and improve strategic planning documents in this area, and consider the budgetary implications of any recommendations. At the end of every academic year, the Council may transmit a summary of its actions and activities to the appropriate Standing Committee(s) with a copy to the Steering Committee. The Council may also submit a report to Committee on Strategic Planning and Priorities on an annual basis.
