Discussion of Self-Study draft:

Maria noted that there is a separate list of different pieces of data that we need, with their status, posted on the google drive.

The different sections of the self-study were reviewed, and comments were added into the draft documents. We made it halfway through the Extracurricular section, and did not get to a discussion on the Engagement section.

Action item: each group incorporate the comments we discussed into their sections.

Action item: everyone look at the Extracurricular section and the Engagement section and post comments in the google document.

Next steps were discussed. We determined we are not yet ready for an executive summary, but that can happen after the next pass through the document, which we will do in December.

The December 21 meeting will be rescheduled. Linda and Maria will send out a doodle poll to determine a meeting day for December.
